

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS AIR FORCE COMMUNICATIONS AGENCY (AFCA)
SCOTT AIR FORCE BASE ILLINOIS

MEMORANDUM FOR HQ AFCEA/CC
ATTN: COL BRUCE BARTHOLD

24 AUG 2001

FROM: HQ AFCA/WF
203 W Losey St Room 2100
Scott AFB IL 62225-5222

SUBJECT: Non-applicability of Certificate of Networthiness for Remedial Action Cost Engineering and Requirements (RACER) Version 2001 3.0.0

1. After reviewing the summary of changes, we concur that RACER version 2001 3.0.0 does not meet the criteria for requiring a certificate of networthiness.
2. SAF/AQ Command, Control, Communications, Computers, and Intelligence Support Plan (C4ISP) policy memo, 13 Jun 00, requires HQ AFCA provide a recommendation as to networthiness of systems that use AF communications and information infrastructure, and further states that a certificate of networthiness is required prior to production and fielding systems that use the AF communications and information infrastructure. Since RACER version 2001 3.0.0 is a stand alone system that is installed from a CD to a local drive and does not connect with the information infrastructure, and does not change network performance, operations, or security, HQ AFCA determines a certificate of networthiness is not required.
3. If you have any questions, please contact June Wilkin, HQ AFCA/WFCI, DSN 779-6259, or e-mail June.Wilkin@scott.af.mil, office e-mail afca.wfci@scott.af.mil.

JAMES C. STRAWN, Lt Col, USAF
Director, Warfighter Capabilities
